

THOSE ACHES
down your
Back and through
your
Limbs MEAN
RHEUMATISM, NEURALGIA
OR KINDRED ILLS. **Dr. J. C. O'Neil**
AT DRUGGISTS
THE O'NEILS' OIL
BALM, MD.

Give Them a Chance!
That is to say, your lungs. Also all your
breathing machinery. Very wonderful
machinery it is. Not only the larger air
passages, but the thousands of tiny tubes
and cavities leading from them.
When these are clogged and choked
with matter which cannot be thrown
your lungs cannot half do their work.
And what they do, they cannot do well.
Call it cold, cough, croup, catarrh,
consumption or any of the family
of throat and nose and head and lung
affections, all are bad. All ought to be
got rid of. There is but one sure way to
get rid of them. That is to take **Booster's**
German Syrup. It is the only drug that
will sell you at 75 cents a bottle. Even if every-
thing else has failed you, you may depend
upon it.

Cure for Piles.
Itching Piles are known by moisture-like
perspiration, producing a very disagree-
able moisture after getting warm. This form,
as well as the itching and protruding piles
yield at once to the application of Dr. **Booster's**
Pile Remedy, which acts directly upon
the part affected, absorbing the tumors, allaying
the intense itching, and effecting a perma-
nent cure. 50 cents. Address the **Booster's**
Medical Co., Piquette, Ohio. Sold by S. J. Hod-
gkinson & Co., Reno, Nev. *feidwry*

Merit Will Tell
Was never better demonstrated than when
"Fryer's Abietine Remedies" were awarded
diplomas at the late California State Fair at
Sacramento, and at Mechanics' Institute at
San Francisco. Wm. Fryer is agent for
these celebrated Abietine Remedies, and he
offers to return your money if they do not give
satisfaction. In buying, be sure the fami-
liar signature of Dr. Fryer is on each, or none are
genuine without it. *feidwry*

Backlen's Arnica Salve.
The best salve in the world for cuts, bruises,
sores, ulcers, salt rheum, fever sores, chapped
hands, chilblains, corns and all skin eruptions,
and positively cures piles or no pay required.
It is guaranteed to give perfect satisfaction,
or money refunded. Price 25 cents per box. For
sale by Hodgkinson & Co. *feidwry*

An Absolute Cure.
The Original Abietine Ointment is only put
up in large two-ounce tin boxes, and is an abso-
lute cure for old sores, burns, wounds,
chapped hands and skin eruptions. It will
positively cure all kinds of piles. Ask for the
Original Abietine Ointment. Sold by Osburn
& Shoemaker at 25 cents per box, by mail, 30
cents. *feidwry*

Cure for Sick Headache.
Go to S. J. Hodgkinson, the druggist, and get
a free sample of Dr. Gunn's Liver Pills; will
cure sick headache, biliousness, indigestion,
bloating, a swollen complexion or pimples on
the face. Only one for a dose. Twenty-five
cents a box. *feidwry*

Advice to Mothers.
Miss Weston's Soreness Syrup should
always be used for children teething. It
soothes the child, softens the gums, allays all
pain, cures wind, and is the best remedy for
diarrhea. 25 cents a bottle. *feidwry*

SOCIETY MEETINGS.

Select Knights A. O. U. W.

SELECT KNIGHTS A. O. U. W., Reno Le-
gion No. 3, meets at Odd Fellows' Hall,

IOE CREAM.

Facts and Fancies Regarding This Delic- ious Refreshment.

Indians will eat ice cream if they have
it until they can't walk. Dolly Madison
asked a chef of a delegation, who was
dining with her and the President at the
White House, and who seemed to favor
that dish, if he wouldn't like some more.
His reply was characteristic, if not strictly
polite:

"Me pretty blank full now. But me
stand up and try."

A noted physician received a nice com-
pliment from a little 4-year-old patient.

"You are a splendid doctor," she
liased. "The best doctor I ever heard of."

"And why do you speak so nicely of
me, my little darling?" eagerly asked the
flattered physician.

"Because you ordered ice cream for
me," was the ingenuous reply.

"Begorra, sir, you have no equal as a
doctor in the broad land," said a grateful
Irishman when the physician prescribed
whiskey.

Ice cream affords many a text for scrib-
ble to the humorist, and hardly a day passes
that one of them doesn't appear. It is
known who first discovered that the
oyster was edible or who ventured to
drink the first cup of coffee or who in-
vented ice cream. But they are worthless,
and here's to them.

There's a half million invested in the
ice cream business and it's a growing
trade. Just think of it; one can send a
postal card for a pint of ice cream to be
left at his residence at a certain hour and
it will be delivered. This is an accommo-
dation and leads to frequent orders and
large ones. It is estimated that 1,000,000
quarts are eaten in New York on a sultry
Sunday.

It was Sydney Smith who thought of
doffing his flesh and sitting in his bones
when the thermometer was ninety de-
grees in the shade. But think of wading
with a linen bathing suit a few minutes
into a pyramid of 1,000,000 quarts of
vanilla ice cream and being obliged to eat
your way out!

ONE SMALL BOY.

His Performances Are Ahead of the
Record.

The small boy is proverbially lively and
capable of making trouble for himself
and others, but the reports which come
from Wayland, La., regarding one spec-
imen of this class go a little beyond the
performance of any other boy, at least
on this coast, who has been heard of to date.

This youth started out one morning re-
cently, in search of crabs, and wading
about near shore, stepped with his bare
foot on a broken bottle, half buried in the
sand, and had four toes nearly severed
from his foot.

The wound was dressed, and the little
fellow went to play as usual, and at the
wharf, and by some means managed to
fall into the water. He was rescued, and,
clad in dry garments, he decided to sit
quietly on the wharf and gently cast a
line for fish.

Soon he felt a bite, and pulling in his
prey found he had secured a catfish.
Grasping the creature to remove it from
the hook, he was soon rushing screaming
up the wharf, having been pierced in the
hand by the bearded cat of the cat.

Once more his father hurried to the
rescue, and by bribing the boy with a
dime, got him to stand still while the fin
was pulled from his hand. The boy pro-
ceeded in his hand while he braced
himself to endure the pain of the opera-
tion. His father pulled, out came the
fin, and the boy, dancing and yelling
with pain, swallowed the dime he held in
his mouth.

At this point the historian draws a veil
over the scene. Evidently there is but
one method of bringing up a boy like
that. He should be put in a hoghead
and led through the bunglehole until he is
old enough to keep out of mischief.—San
Francisco Call.

ELUSIVE GEMS.

The Strange Manner in Which Dropped
Diamonds Disappear.

Every trade has peculiarities about it
that are inexplicable. A noticeable in-
stance of this is the strange manner in
which diamonds and other precious stones
disappear when accidentally dropped by a
dealer while handling them.

"It really seems," said a jeweler to a
reporter, "that these valuable stones have
the power of motion. A diamond dropped
at one end of a room has been found in
the dust at the further end of the apart-
ment."

"On another occasion I saw a stone that
was dropped to the floor from a loose set-
ting, and after hours of fruitless search,
this same stone was found in the show
window six feet from where it fell."

"A friend of mine said a customer of
his spent two hours in looking for a
diamond that flew from the tweezers in
which it was held for inspection, and
when they had given up the search in
despair it was found nestling cozily in the
black beard of the customer."

"Other precious stones seem to have the
same faculty for disappearing. A short
time ago a dealer allowed a fine topaz to
slip from his hand. The spot on the floor
where it fell, and in fact every part of the
office, was thoroughly searched, but the
stone was never recovered."

Some Ingenious Euphemisms.

You remember the young lady who
went to have a look at the penitentiary in
San Quentin, and got into conversation
with a prisoner, and wished to ask how
long he was in for a delicate way? She
asked:

"How long do you expect to be away
from home?"

"There was a lady in the country whose
husband had been given fourteen days
for a spree and a fight. The day after he
was sentenced a city friend called upon
her."

"And where is your husband?"

"John! Oh, John went down to the
Court House yesterday on some business
and I don't think he'll be back for a
couple of weeks."—San Francisco Chron-
icle.

A Bit of Chinese History.

The Democratic press which deals so largely with ancient history in its treatment of the Chinese question, says an exchange, has not yet got close enough to modern times to publish General Harrison's last utterances as found in his letter of acceptance. It does not tell the readers whom it would instruct, that the Republican candidate declared that the evils of Chinese immigration no longer permit of argument; that he believes in the most stringent laws for the exclusion of this people and would aid their passage and enforcement in every legitimate way. This is a bit of history too modern to have yet come to the attention of Democratic editors. But while they have been so long and laboriously delving among forgotten tomes and dusty archives, how comes it they have overlooked so many interesting facts in connection with the presence of the Chinese in California. The Omaha Republican has been more successful.

In 1850, eighteen years before the Burlingame treaty was made 151,800 Chinese came through the port of San Francisco alone. It will be remembered that those were Democratic days. In 1849 California. He resigned, and John McDougal, the then Lieutenant Governor, was made Governor. He was a Southern Democrat and a representative of Southern interests, and referred to the Chinese as being "the most despicable of our adopted citizens." In 1852 the Legislature of California was Democratic, and a Democratic member introduced a bill to legalize American contracts made with Chinese for coolie labor, ranging from two to three and five years, at wages from \$7 to \$12 per month, when common labor in San Francisco was bringing \$3 per day. This bill passed in that Democratic assembly, every Democrat voting in the affirmative, and every Whig voting against it. The bill was defeated in the Senate by David C. Broderick, with the help of the Whigs. That is where the door to Chinese immigration was opened, in the then Democratic State of California, and in the popular branch of the Legislature. Every Democrat voted to legalize contracts for coolie labor. It was the next thing to slave labor, and as the South was defeated in the attempt to make California a slave State, Southern Democrats tried to legalize a system as near like their own home institutions as possible.

If you will trace back any inquiry in this country that has become a political misfortune—from slavery, Chinese and coolie labor—it will be found to have had its origin and support under Democratic administrations.

Governor Richardson of South Carolina declares that the greatest problem which God has given to the people of that State "is how to rule 600,000 blacks with only 400,000 whites." The Ku-Klux methods were tried and discarded after experience and demonstrated that they were not approved by providence; the red shirt brutalities failed and were also abandoned, and now intimidation and the tissue ballot are recognized as Divine agencies for solving the "great problem." It seems blasphemous, to be sure, but we must bear in mind that slavery and secession used to be regarded as Divine institutions in South Carolina.

The Swiss Government is about to ask Parliament for a credit of 25,000,000 francs for the equipment of the army and for the manufacture of new guns.

There is no truth in the report that Villard's South Polar expedition has been abandoned.

THE CORTEZ MINE.

A Eureka County Mine Which Has Made Its Owner a Bonanza King.

Regular Correspondence GAZETTE.
Elko, September 20, 1888.

EDITOR GAZETTE:—There has been successfully operated since 1870 a mine in Eureka county, some thirty-seven miles south of Beowawe, known as the Cortez mine, owned and operated by Simon Wenban. This mine is at present, in all probability, one of the most productive mines in the State, and from the massive appearance of the ore body now being worked upon it would seem to be beyond all question the most permanent. The croppings are bold and prominent and can be seen with the naked eye for miles. The result of assays from samples taken at random from the croppings gave a result from nothing to \$14 per ton. This immense mass of mineral-bearing quartz courses its way nearly north and south across the west face of the Cortez range, which runs from northeast to southwest. The out-croppings on the surface are over 100 feet wide and can be traced upon the surface for over a mile. This district was first discovered in 1863, when what is now called the old Cortez Company built a mill and worked some locations a few miles north of the present Cortez mine. The machinery for the first mill was freighted from Sacramento by teams at a cost of some 22½ cents per pound.

The heavy freight, besides the heavy expense at both mill and mine and the inexperience of miners and mill-men made a grand failure of the first operations. The ore, however, taken from these mines north of the big ledge gave highly satisfactory assays. This failure was in 1867. In the same year a company was organized in Virginia City headed by Andrew Beach, Thomas McMeans and others to prospect this region of country. This company was named the Cortez and they located the ledge that is now being worked and is known as the Garrison ledge, it being the big ledge above referred to. Both the old and the new companies performed a good deal of ill-considered work and during their operations had a great many obstacles as well as some dissatisfaction among themselves to encounter, all of which resulted unsatisfactory to all parties interested; hence, in the year 1880, Simon Wenban, who had been before a owner, now secured control of the whole system of the Cortez mines, and commenced the work of opening up the mines vigorously. This gentleman, like his predecessors, found that the road to financial success was beset with many obstacles and difficulties, but with his energy and pluck and with strong financial backing he finally overcame them all and to-day he may be termed one of our Bonanza kings, and the Cortez mining property is now one of the best paying pieces of property in the State. The mill is large and most substantially built and contains all of the most recent appliances, that science and experience has pointed out as necessary to the saving of the precious metals. The work at the mine and mill is under a systematic order of economy.

The Garrison ledge rests in a limestone formation capped with quartzite, and dips to the east in the main body of the mountain. It was held in low repute during the early days of the camp, for the reason that the assays of the croppings were so low; but in 1887 exploration work was done along the line of the ledge and a few blasts were put in near the location point, which exposed to view an exceedingly rich chimney of ore. The Cortez mine proper has around it a large number of buildings for the accommodation of employees and for the purpose of the mill and mine, which gives to this camp the appearance of a good sized town. The mine is now worked by means of a tunnel, which runs from the southeast face of the hill, striking the ledge at a depth of between 700 and 800 feet deep from the croppings. From the tunnel to the mill there is a well graded road of about three-quarters of a mile, and, being a gradual descent, immense loads of ore is hauled to the mill at little expense. I am informed that the monthly output of bullion for the past six years has been on an average of about \$55,000 to \$58,000 per month, and the expense account has averaged from \$12,000 to as high as \$14,000 per month, leaving a clear balance of \$45,000 to \$46,000 per month, or, in other words, \$275,000 per annum. It is believed by those that are well posted upon the output of this mine, that there has been taken out from the Garrison ledge alone, not less than \$3,000,000. From the mass of ore that is exposed to view in the mine, one would be led to believe that there is ore enough in sight to run the present milling facilities for an indefinite period.

Cleveland's Plan.

New York, Sept. 23.—President Cleveland, after consultation with various leaders of the Democracy of this city, has decided that it will be better for the national ticket to have the County Democracy and Tammany Hall nominate separate candidates for Mayor this fall. This will make a three-cornered fight for the office, and the Republicans think they stand a good chance of getting their man, whoever he shall be, elected. The reason why the President so decided the matter is that he believes a healthy rivalry between two big Democratic organizations will draw out the full Democratic vote for the national ticket.

Fire in a Mine.

DEADWOOD, Sept. 23.—The hoisting works in the Seabury-Calkins mine, at Carbonate, twelve miles from this place, was totally destroyed by fire this afternoon, occasioning a loss of \$12,000. The origin of the fire is unknown.

Advices from India state that a religious riot has taken place at Mhow. Three Hindoos were killed and fifty injured.

Eleven cases of smallpox has been discovered in one house in Buffalo, New York.

REPUBLICAN CAUCUS.

Three Hour's Discussion Over the Tariff and Final Adjournment.
WASHINGTON, Sept. 23.—Neither house of Congress was in session Saturday, and the Republican Senators embraced the opportunity to hold a caucus to discuss the subject of the tariff and the final adjournment. The caucus was in session nearly three hours, and at its conclusion it was announced that no final decision on either of the questions had been reached.

The Republican Senatorial caucus this afternoon determined with practical unanimity to adhere to its previous decision to report a tariff bill to the Senate. As announced in these dispatches last night the bill will be reported to the full meeting of the Finance Committee next week, probably on Thursday, and when it is presented to the Senate it will be accompanied with an elaborate report. The Republican members of the Finance Committee say that all reports respecting an abandonment of the position assumed by previous Republican caucuses on the tariff question are without foundation. No adjournment of Congress is anticipated prior to the last of October. The caucus to-day also decided to take up Senator Sherman's Anti-Trust bill and debate it at length. It was also agreed that consideration should be given bills to admit as States the Territories of Washington, Montana and Dakota.

The hearing of the sugar tariff rates by the Finance Committee was postponed until Monday.

THE WEST ALL RIGHT.

A Buckeye Who Says the West Will Be Solidly Republican.

NEW YORK, Sept. 22.—General James A. Hall, formerly of Maine, but now of Columbus, Ohio, at the Fifth-avenue Hotel, to-day conversed with a reporter, and said: "Colonel Brice's visit West had no effect whatever. It never changed a Republican vote. In Ohio the Republican majority will be 40,000. The candidacy of Judge Thurman will not gain for the Democrats any votes in the Buckeye State, but will lose a good many. They do not approve of the Judge's outspoken free-trade utterances, and will go against him on that ground." "You think, then, the Republicans will carry all the Western States?" "Yes, and by decided majorities. We feel very confident about Indiana, although we hear the Democrats threatening to take a barrel of money into the State. In every place I visited in the West the people are stirred up over the tariff and believe free trade and Democracy synonymous terms."

A FAMOUS CASE.

A Famous Damage Suit in Iowa Finally Decided.

WATERLOO, Iowa, Sept. 23.—The famous Jones county calf suit at last has been settled, the jury having returned a verdict awarding \$1,000 damages to the plaintiff. The case was first begun in 1874, when a man named Potter bought five calves from Robert Johnson for \$45. The animals shortly afterward were reported as having belonged to various farmers, from whom they had been stolen. The Jones County Anti-Horse-theft Society charged Johnson with the robbery, and in the fall he was indicted. In the following May he was again indicted for the same offense. In the first trial the jury disagreed, but in the second he was acquitted. Soon after his acquittal he began suit against two farmers named Miller and Foreman and six other prominent members of the society which had caused his arrest, claiming \$10,000 damages for malicious prosecution. This case was tried three times in various District Courts, Johnson each time receiving a verdict awarding him from \$3,000 to \$7,000. The verdict was set aside each time by the higher court on technicalities, but to-day's decision is final. Johnson and the defendants have all been beggared by the litigation.

A BEGGING LETTER.

The National Democratic Committee's Appeal for Aid.
NEW YORK, Sept. 24.—The National Democratic Committee has issued an address to the American people closing with the following paragraph:

The Democratic party can make no claim upon corporations or persons because of undue partiality shown their interests by legislation or otherwise. It desires that all who are living within the borders of our common country shall share in just proportions our increasing prosperity. It has never tolerated the enrichment of a few at the expense of the many. It will appeal to the people only for aid. All sums so contributed will be received and held by the committee and will be expended only in a lawful way for the proper and necessary outlays required by the canvass which you have directed us to conduct.

THE PRESIDENT.

WASHINGTON, Sept. 23.—President Cleveland came in from Oak View this morning with Private Secretary Lamont, but he has not yet taken action on the Chinese Exclusion bill, and it is not known when he will do so. It is the impression at the White House among the executive clerks that he will not approve the bill before the middle of the week.

Three thousand women who desire to exercise the privilege of voting for School Commissioners have registered in Boston. This is the largest number ever recorded there.

NEW TO-DAY.

Registration Notice.

NOTICE IS HEREBY GIVEN THAT THE Registry Books of Reno Township, First, Second and Third Wards, of Washoe County, Nevada, are now open at my office, in the town of Reno, in said County, for registering the names of the qualified electors in said township for the general election to be held NOVEMBER 6th, 1888, and that the time for such registration will expire and Books be closed at 6 o'clock P. M. on the 30th DAY OF OCTOBER A. D. 1888.

WM. H. YOUNG, J. P.

THE PLATFORM.

The Republicans of Washoe, proud of the past and hopeful for the future, heartily endorse the platform and nominees of the National Republican Convention, as adopted at Chicago, and the Republican State Convention at Winnemucca, and pledge a rousing majority for Harrison and Morton, and Protection, and Murphy and Bartine and the ticket nominated by this Convention. We demand legislation from both Government and State in regard to irrigation, and for the improvement of our natural waterways, as well as for the storage of water, whereby the natural advantages of this section can be improved to their fullest capacity. We demand the most rigid economy in State and County affairs, and the establishment of the State's expenses upon such a basis as will secure good government at the lowest rate of taxation. We maintain that a rate of seventy-five cents should be and is sufficient to provide revenue for the State Government. In view of the rejection of the new Chinese treaty by the Mongolian Government we demand the total and absolute exclusion of all Chinese, and they must go.

HOTEL ARRIVALS.

DEPOT HOTEL—R. E. Graves, Colorado; C. E. Romelino, Ohio; E. G. Wheeler, C. A. Hanover, Chicago; R. P. Evans, Boca; R. A. Harris, C. G. Fisher, S. N. Thomas, Omaha; D. H. Eastbrook, Elko; W. T. Brissell, C. Derby, Reno; F. M. Schoenberg, L. S. Thompson, M. J. Risk, J. Rosenblatt, San Francisco; W. H. Blauvelt, Virginia; J. H. Matthews, J. N. Bateman, Georgia; C. S. Robb, Sacramento; W. L. Coulter, Wadsworth; A. Gregory, Pyramid; W. P. Moss, Truckee.

PALACE HOTEL—H. Bell, H. L. Canard, L. W. Button, C. O'Neil, San Francisco; J. W. Slavan, Oakland; J. J. Dickinson, St. Helena; J. James, A. Brown, London; J. Tighe, A. A. Ewalt, Reno.

JOTTINGS.

Mayo Greenlaw, dentist, Virginia street.

The best and cheapest boots and shoes at Sanderland's.

Job printing nearly and promptly executed at the GAZETTE office.

A good meal or a good bed at the Pioneer hotel for twenty-five cents.

Buggy robes from \$2.50 to \$30 each at Leeper's harness shop, Sierra street, near Fourth.

The famous Wieland lager beer and a fine hot lunch for one bit at the Jolly Wieland saloon.

Full line of children's school hats at Miss Gibb's, Virginia street. Latest styles and lowest prices.

J. F. Aitken will saw your wood with his steam machine, or deliver wood cut any length desired.

Don't buy any men's and boys' clothing or underwear until you examine Sanderland's stock, styles and prices.

Drop into J. J. Becker's and partake of his excellent hot lunches every day at noon. The finest brands of beer kept on draught.

For school books, pencils, slates, writing paper, novels, toys, and bird cages, go to C. J. Brooks'. Pianos and organs on the installment plan.

The latest novelties in dry goods can be seen displayed at F. Levy & Bro.'s dry goods store; also a new line of ladies' linen collars and cuffs of the best and most popular styles.

C. A. Thurston keeps a full assortment of purses, ladies' handbags, fine cutlery, all kinds of blank books, letter pads, envelopes and all the leading journals, periodicals, etc.

Railroad Land Suit.

The Land Department of the Central Pacific railroad has brought suit in the District Court in Lander county against E. B. Swales, a stock owner, to recover \$5,000 damages for alleged trespass on railroad lands in the vicinity of Battle Mountain. This suit will be watched with interest, as it will determine whether or not it is trespass to pasture live stock on unfenced lands within the limits of the railroad grants, where alternate sections belong to the public domain.

Eat With Comfort and be Happy.

It is by no means uncertain, but, on the contrary, a well ascertained fact, that upon the well being of man's stomach depends that modicum of happiness which is vouchsafed to him in this world. Dyspepsia, the foe of all others to the stomach's tranquility, and most to be dreaded, is a complaint to the preliminary relief and eventual cure of which Hostetter's Stomach Bitters is specially adapted. It enables those who use it with a reasonable degree of persistence to eat with relief, because it imparts a healthful appetite; to digest with ease, because it strengthens the stomach; and to assimilate the food which is eaten and digested, thus benefitting health, promoting flesh and sustaining the exercise of the physical and mental faculties. It, moreover, facilitates the secretion of healthy bile, acts without discomfort the habit of body, and tends, when taken upon retiring, to produce healthy slumber. Malaria is conquered by it.

\$5,000 Reward \$5,000

For a better or more pleasant remedy for the cure of consumption, bronchial troubles, cough, croup and whooping cough than Santa Abie, the California king of consumption. Every bottle warranted. If you would be cured of that disgusting disease, catarrh, use California Cat-R-Cure, \$1 a jar; by mail \$1.10. Santa Abie and Cat-R-Cure are sold and warranted by Osburn & Shoemaker, Reno, Nev.

Fryer's Abietene Cough Balm is guaranteed to give immediate relief in Croup, Whooping Cough, Bronchitis and all affections of the Throat. Price, 75 cents. Sold by Wm. Plummer. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

BREVITIES.

Local and General Intelligence.
The Plutes say that the pine-nut crop is a failure.

Elko county wool-growers are still shipping wool to Boston.

Sam Davis will not represent Ormsby county in the Legislature this year.

Col. J. A. Hardin has purchased 1,800 tons of alfalfa hay for \$4 a ton.

H. F. Spencer, an old resident of Genoa, died there on the 17th instant, aged 68 years.

J. Blackburn Ryan, commonly known as "Back" Ryan, a Central Pacific attorney, is in town.

Work has been commenced on the fish hatchery at Donner lake, and it will be completed by October 15.

It is stated that the shops of the Central Pacific Railroad, now at Truckee, will shortly be removed to Reno.

It is reported that the Central Pacific officials contemplate forming a new freight division between Truckee and Gold Run.

Ticket No. 42 won the scarf raffish at Chamberlain & Tykes' Saturday night. Sol Levy being the holder of the lucky number.

Registry agents throughout the country are notified that it is time to publish the official registration notice. Send in your notice.

George W. Fisher, a Central Pacific brakeman, was killed in the snowsheds last Thursday. It is not known how the accident happened.

The State Fair of 1888 was the most successful ever held in the State, and reflects great credit upon those who had the arrangements in charge.

Louis Cohn, who has been very ill in San Francisco for the past two months, is convalescing, and is expected home in about two weeks.

Lost, a pair of eye-glasses. Finder will receive a reward of \$5 upon returning them to Nasby's Bazaar or to W. D. Phillips, C. P. Ticket Agent.

Several merchants have expressed a determination to discharge their clerks who gamble. A chance will be given the young men to reform, and if they do not heed the warning, they will get their walking papers.

The Ormsby County Fair opened today in Carson. It promises to be second to the State Fair in importance and interest. The merchants of Reno should close this week for one day and attend in a body.

It was reported on the streets this morning that Marion Sellers, the man injured by a bull at the State Fair grounds Saturday, had died from the injury received, but the rumor could not be traced to its fountain head.

Daniel Abner Coon, aged 1 year and 11 months, died in this town on the 22d instant of diphtheria. The mother of the child is ill of the same disease and the father down with typhoid fever, both being confined to the house.

L. Eugene Lee, for many months past employed in a responsible position in the First National Bank, is the latest recruit to sign the roll of the State University, he having resigned from the bank for the purpose of entering the Academic Department of that excellent institution of learning.

Charles Hambrecht, charged with stealing a horse from T. G. Herman of Wadsworth, decided not to stand a second trial, the jury in the first having disagreed, pleaded guilty when the case was called in the District Court Saturday morning, and was sentenced to one year's imprisonment by Judge Bigelow.

The sale of Holstein cattle from the herd of Frank H. Burke of Menlo Park, Cal., at the Fair grounds Saturday, C. W. Borton, auctioneer, was very successful, sixteen thoroughbred and two graded cattle being sold in less than forty minutes for \$1,875, cash. The sale was a satisfactory one in every respect and Mr. Burke will repeat the experiment at an early date.

Appeal: What Constitutional Amendments do you allude to? Remember Davy Crockett's motto and act accordingly. If you mean the Constitutional Amendments published in the *Enterprise* your "correction" goes; if you mean the Constitutional Amendments passed by the Legislature of 1885 and agreed to by the Legislature of 1887 you are wrong. The *Gazette* had reference to the latter.

The Amende Honorable.

The San Francisco *Post*, in its issue of the 22d inst., says: The *Post* wishes to assure Senator Jones of Nevada of its most distinguished consideration and to offer all the apologies of the season for crediting him with the remark that "the protective tariff is a system of naked robbery." The remark was made by Senator Jones of Arkansas. Senator Jones of Nevada is a good protectionist, and has shown no signs of idleness, while Senator Jones of Arkansas is a Democrat.

Light Crops.

The Elko *Independent* says: Elko county, once noted as the principal grain-raising county of the State, will not produce more than half enough barley to supply the home demand. Heretofore the yield of wheat has been sufficient to keep three mills running, furnishing flour, not only for home consumption, but also a large quantity for shipment to Eureka and other points. This year there has not been any more raised than will be needed for chicken feed. As far as heard from the yield has been large, but the number of acres planted to grain has been much less than in former years. Alfalfa is gradually taking its place, the farmer is finding that it pays better than grain.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

James Middlewart, Decatur, Ohio, says: "I had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at Hodgkinson's drug store.

Irritation of the Throat and all Lung Troubles are quickly relieved and permanently cured by Fryer's Abietene Cough Balm. (It contains no opium.) Price, 75 cents. Sold by Wm. Plummer. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

STORAGE AND IRRIGATION.

Miners also interested in the All-Important Question.

The *Virginia Enterprise* says: It is easy to fall into the mistake of associating irrigation with agriculture and overlooking its immediate effect on the mining interests. Although Nevada, could all her available land be supplied with water, would be a great agricultural State, the products of the farm and stock range will never equal in importance the products of the mines, and it should be understood that miners are as directly interested in the increase of water supply as are farmers. Mining communities should not misunderstand the agitation of the water question and treat it with indifference through the common association of ideas of irrigation with farming operations. As has been pointed out before, every valley made productive assists the miner and prospector, and every drop of water added to the supply of those valleys now under cultivation adds to the ease with which he obtains supplies and often adds to the water with which the mills are run. Our recent experience will be made to bring into use every county as to the intimate relationship existing between the two apparently widely different interests, and other mining counties will be able to find a corresponding connection between their own mining and agricultural industries.

We are in the midst of a national campaign, and although every one may be deeply occupied in watching the progress of the great contest, there should be time taken to consider measures of home betterment. Our Legislature should understand that it is the will of the people that vigorous efforts shall be made to bring into use every stream and spring, and to save every drop of water that now runs to waste in the Spring. They should be made to understand that though farming will receive an impetus, from which the State will derive great profit, the final and important advantage will accrue to the mines whose output equal the crops of large States. Our farmers and miners have parallel lines of interest, and a careful consideration of the best means of assisting both classes should be urged on those who contemplate presenting themselves as candidates for the next Legislature.

Let them study the means of increasing the volume of water, and when their theories are applied the number of haystacks will be increased, and for nearly every haystack a corresponding ore dump will make its appearance. Water makes work; work makes wealth, and we can help ourselves. If we do not we can not reasonably expect the outside world to come to our assistance.

Afrail of Belmont Boy.

C. S. Roberts, the owner of Belmont Boy, the horse which won the free-for-all pacing race Saturday, beating Sweeney's Sam Lewis and Tryon's Pocahontas in three straight heats, shipped his horse to San Jose this morning, having, as he alleges, been debarred from participating in the Carson races at Sweeney, whom he claims stated that should he persist in racing at Carson he would find no competitors. He also claims that it was a put up job to get him out of the way, and cites the fact that Sweeney gave him \$100 in order to gain his consent. He took the money, he states, because he saw that he could have no show in Carson, the influence against him being too strong for him to cope against, and reluctantly cancelled his engagements there.

State Land Office.

During the week ending September 21st, twelve applications for State land were filed, embracing 3,285.37 acres. Cash receipts were: Payments on application, \$821.30; payments on contracts, \$53.34; interest payments on contracts, \$170.11; total, \$1,044.81. Township maps, with abstracts, were completed and forwarded to Eureka county 6, to Nye county 23 and to Elko county 11. Twenty-nine contracts, in duplicate, covering 5,087.05 acres, were signed and completed, drawing interest at 6 per cent. per annum.

Reno Will Reincorporate.

R. W. Parry and W. M. Haveron canvassed the town to-day for the purpose of getting the merchants to close their places of business, between the hours of 10 o'clock a. m. and 6 o'clock p. m., on either Wednesday or Thursday, so that all who desire can visit the Carson Fair. They report every merchant spoken to willing to close, and a special train will be chartered to carry Renoites to the Capital City on whatever day is selected.

Nearly Equal to Home Products.

The *Virginia Chronicle* says: Cabbages have been raised at the State Prison this year, three of which will fill a common flour barrel, and beets, each one of which is as big as a watermelon. They were grown beneath the shade of mammoth sun-flowers, twelve feet high and as big as Japanese umbrellas.

Voters Take Heed.

Every person who makes, offers, or accepts any bet or wager upon the result of any election or upon the success or failure of any person or candidate, or upon the number of votes to be cast, either in the aggregate or for any particular candidate, or upon the vote to be cast by any person, is guilty of a misdemeanor.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove pimples, boils, salt rheum, and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50 cents and \$1 per bottle at Hodgkinson's drug store.

Why suffer with Bleeding, Itching, Ulcers, Piles, Catarrh, Old Sores, Chapped Hands, when a few applications of Fryer's Abietene Ointment is guaranteed to effect a cure? Sold by Wm. Plummer. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

H. F. BARTINE.

An Out and Out Protectionist—Cassidy's Position.

The *Lyons County Times* says: There is no reason why H. F. Bartine, the Republican nominee for Congress, should not be elected by a majority of 750 to 1,000 votes this Fall. Although the Democrats have put up their heaviest stick of timber, we feel confident that Bartine will tumble it down. Mr. Bartine will make a splendid member. He is a lawyer of much ability and intelligence, and having lived in the State from boyhood, almost, knows what the needs of the people here are. He will not be backward in putting forward any measure that would benefit Nevada, and although it is a hard thing for one member of a State to accomplish much in the halls of Congress, we feel assured that Bartine would come as near securing for Nevada what she is entitled to as would any man who may be sent to Washington. Cassidy by his vote in Congress, when there, put himself on record as a free trader, and if he now denies it, the vote on the Morrison bill, which reduced the tariff on everything 20 per cent, can be produced. He talks protection in Nevada where he wants votes, and when he goes to Washington votes for any free trade measure that will bring him a vote. Bartine is an out and out protectionist and for this one reason should be elected by a good, big majority.

THE PROHIBITION PARTY.

Reasons Why the Prohibition Ticket should not Receive Support.

The *Carson Tribune* says: He who votes the Prohibition ticket next November need never claim to be a Republican, for at this time the success of the Grand Old Party is paramount to every other consideration. Let the Prohibitionists do all in their power to carry local elections if they desire to and by inhibiting the manufacture and sale of liquor cause more private drunkenness, but they must keep their fingers out of the national pot or be forever ostracised from the Republican party and permitted to occupy no position, let it be never so menial, under its rule.

A man may imagine he is doing a good work by advocating and supporting prohibitory measures, but in the present campaign he is an enemy to national progress and the well-being of every workman in the land if he, claiming to be a Republican, vote any other ticket but that.

In connection with these remarks we have to say that prohibition in anything connected with what a man eats, drinks or wears, is un-American and unconstitutional, and never can be operative in the long run, for just so long as grain grows and grapes ripen, so long will wine and spirituous liquor be manufactured and consumed, and although the advocates of temperance are worthy of credit, nothing better than moral suasion will avail in stopping drunkenness, especially in America, where men, native or foreign-born, consider themselves free agents and will not submit to compulsion in any manner, shape or form.

FORTY MILLIONS.

The Estimated Gross Receipts of the Southern Pacific for the Year.

Timothy Hopkins told a San Francisco *Call* reporter Saturday that the gross earnings for the first seven months of 1888, for the entire Southern Pacific system, reached a total of \$26,000,000. The operating expenses have not yet been ascertained, but the total will be pretty considerable. Hopkins said he was surprised at the extent of this year's earnings, as the company has been hauling large quantities of low-grade freight at low rates. The coming five months is generally more productive of heavy returns than the past seven, the crops to be moved of a more valuable character, and consequently paying better rates. With these prospects Hopkins thinks the gross earnings will exceed \$40,000,000. The gross earnings of 1887 exceeded \$34,000,000.

"The Madonna at the Tub."

Of whom Miss Phelps writes, was a genuine specimen of health and strength. She doubtless heeded the warnings of her predecessors, and understood and appreciated the matchless qualities of Dr. Pierce's Favorite Prescription, which relieves and cures so many ailments peculiar to the sex. As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages, in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, "Favorite Prescription" is the greatest earthly boon, being unequalled as an appetizing codifier and restorative tonic.

For constipation, sick or bilious headache, use Dr. Pierce's Pellets, or Antibilious Granules. Purely vegetable. One a dose.

Fatal Dispute Among Stockmen.

News has been received at Winnemucca of a fatal encounter between D. L. Shirk and James Isaacs at Stein Mountain, Grant county, Oregon, last Tuesday. Isaacs being shot by Shirk, with a rifle, in a dispute about land matters. Shirk is a stockman and well-known in the sagebrush country.

When symptoms of malaria appear, in any form, take Ayer's Ague Cure. It will prevent a development of the germ of disease, and eradicate them from the system. A cure is warranted in every instance.

Why cough and suffer with a cold when Fryer's Abietene Cough Balm will give immediate relief. (It contains no opium.) Price, 75 cents. Sold by Wm. Plummer. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

When the system is debilitated by disease, it is re-quickened and strengthened with Fryer's Sarsaparilla. This medicine invariably proves itself worthy of all that can be said in its praise. It cures all skin diseases, and all diseases of the blood. Price \$1. Six bottles, \$5.

Hall's Hair Renewer.

Hall's Hair Renewer restores gray hair to its original color; makes the scalp white and clean; cures dandruff and humors; prevents the hair from falling out, and renders it soft and brilliant. The editor of the "Ocean Foam," Cape May, writes: "We speak knowingly, when we assert that Hall's Vegetable Sicilian Hair Renewer is the best of its kind. The article is an elegant and cleanly one, without which we think no toilet complete." Thos. D. Jones, Middle Granville, N. Y., writes: "I have used

The advance of time is heralded by bleached, thin, and falling hair. By the use of Hall's Hair Renewer, the hair may be restored to its original color, lustre, and vitality. M. N. Johnson, Fitchburg, Mass., writes: "My hair was weak, thin, and full of dandruff. Hall's Hair Renewer has removed the dandruff, and caused a vigorous growth of new hair." Abel H. Smith, Portsmouth, Va., writes: "My hair had nearly all fallen out, and that which was left was dry and dead. I used one bottle of Hall's Hair

Hall's Hair Renewer,

and now rejoice in the possession of hair as abundant as ever." E. J. Adams, St. Paul, Minn., writes: "A diseased scalp caused my hair to fall out, and, after using a number of preparations without avail, I finally tried Hall's Hair Renewer, which caused a vigorous new growth. I am still using it, and could ask for no better results." Mrs. R. H. Corning, Battle Creek, Mich., writes: "By the use of Hall's Hair Renewer, my head, which was quite bald, has been covered with a fine growth of young hair."

KISSES ON INTEREST.

A Father's Beautiful Counsel to his Daughter.
A father talking to his careless daughter, said:
"I want to speak to you of your mother. It may be that you have noticed a careworn look upon her face lately. Of course it has not been brought there by any action of yours, still it is your duty to chase it away.
"I want you to get up to-morrow morning and get breakfast, and when your mother comes and begins to express her surprise, grieve up to her and kiss her on the mouth. You can't imagine how it will brighten her dear face. Besides you owe her a kiss or two.
"Away back when you were a little girl, she kissed you when no one else was tempted by your fever-tainted breath and swollen face. You were not as attractive then as you are now. And through those years of childish sunshine and shadows she was always ready to cure, by the magic of a mother's kiss, the little, dirty, chubby hands whenever they were injured in those first skirmishes with the rough old world. And then the midnight kiss with which she routed so many bad dreams, as she leaned over your restless pillow, have all been on interest these long, long years.
"Of course, she is not so pretty and kissable as you are; but if you had done your share of work during the last ten years the contrast would not be so marked. Her face has more wrinkles than yours, far more, and if you were sick that face would appear more beautiful than an angel's as it hovered over you, watching every opportunity to minister to your comfort, and every one of those wrinkles would seem to you to be bright wavelets of sunshine chasing each other over the dear face.
"She will leave you one of these days. These burdens, if not lifted from her shoulders, will break her down. Those rough, hard hands, that have done so many necessary things for you will be crossed upon her lifeless breast. Those neglected lips that gave you your first baby kiss will be forever closed, and those sad, tired eyes will have opened in eternity, and then you will appreciate your mother; but it will be too late."
"HOME, SWEET HOME."
"The Sweet Power of Magic."
The little city of Dalton, in North Georgia, has a tradition about John Howard Payne.
When the Cherokees were corralled for exportation from North Georgia and East Tennessee to what is now Indian Territory, Payne was one of the whites at the frontier settlement of Cross Plains, located where Dalton now stands. Many of the Indians, loath to leave the homes of their childhood and of their tribe for generations, tried various ingenious methods of dodging the officers. Payne several times shielded them.
Complaint was made against him, a warrant was issued, and he was arrested afterward by Sheriff Gen. Underwood, at the home of old John Rose, hereditary chief of the Cherokees, whose log cabin still stands in the now suburbs of Chattanooga.
Payne, evidently with the thoughts of the homeless Indians in his mind, began to sing the first stanza of his now world-famous song, then unpublished, "Home, Sweet Home."
The pioneer Sheriff stood still as the words fell upon his ear.
"What song is that?" he asked as the first verse ended.
"It's a little composition of my own," answered Payne.
"Sing me some more—sing all of it!" exclaimed the frontierman.
And Payne did sing it, with such spirit and understanding that the Sheriff's feelings got the better of him, and he told Payne he could help the Indians as much as he pleased.

"HOME, SWEET HOME."

"The Sweet Power of Magic."

The contemplated Channel bridge, as outlined by French and English engineers, is expected to cost some two hundred million dollars, the shortest distance being some twenty-two miles, that is, on the score of shallowness.
The depth of the Channel is declared to be much less than is commonly supposed, and there are two shallows—those between Cran-aux-Ans and Folkestone, where the depth is only twenty feet, and these, it is expected, will insure a material difference in laying the foundations and huge piles which will be required for such a gigantic structure.
From the French coast to these shallows the depth is about 160 feet, and from the other shallow to Folkestone about 100 feet.
The plan is to have a bridge with two slight bends, the first deviating a little to reach one shallow, and the other falling back to reach Folkestone.
The piles required would be blocks of concrete and masonry 160 feet long by 100 broad, these to be placed at intervals of about 550 yards, these measurements to be possibly augmented in order to insure to the bridge a strength capable of bearing some 25,000 tons weight.
The roadway of the bridge, will be about 160 feet above the sea level, or of sufficient height to enable vessels of any class to pass freely beneath it.

SHEEP SHEARING BY MACHINERY.
An Improvement First Introduced in Australia.

The process of sheep shearing by machinery is now performed in Australia by an ingenious kind of device, the results, as represented, being very satisfactory.
The apparatus in question is a very simple one, being made on the same principle as the cutter of a mower or reaper, and the knives are worked by means of rods within the handles, these in their turn being moved by a core within a long flexible tube, which is kept in a rotary shaft, and wheels driven by a stationary engine. The comb is in the form of a segment of a circle, about three inches in diameter, with eleven conical-shaped teeth.
Each machine is worked by a shearer, and, as the comb is forced along the skin of the animal, the fleece is cut.
The machine can be run either with a steam or gas engine, or by ordinary horse power, and does not easily get out of order.

Grandmother's Slipper.
The total abolition of that old-time institution, the "grandmother's slipper," is doubtless owing to the creation of the new order of knighthood, the juvenile bandit.
Shingles and old slipper had much to do with the proud civilization of the past.—Richmond Star.

THE BEST WAY

PRACTICAL and easy way of getting the very best results in the purchase of Wearing Apparel, Household Supplies, etc., is afforded by the mail order shopping system.

Mail shopping presents an easy and practical way of so doing. It places the brilliant and varied assortments of large city merchants at the very doors of those who live in small towns and by-places. It secures for them better goods, better styles, better satisfaction and lower prices than possible in any other way.

Mail shopping is not an experiment. Its success is an accepted fact. It is rarely that a person who has once given it a trial fails to continue to buy in that way. Such, at least, is our experience with the thousands and tens of thousands who yearly add their names to our list of customers.

One reason why this branch of our business has proven so successful, is that people, in sending to us, risk nothing. They get in advance from our Illustrated Catalogue an accurate idea of the style, quality, appearance and price of whatever they order. If the goods sent them are not in accordance therewith, they can be returned at our expense, and the money refunded. Thus, customers have everything to gain; nothing to lose.
